

August 11-14, 2008

Mathematical Building 404, Postech, Pohang

Summer School on Spectral Theory of Automorphic Forms

Supported by Korea Institute for Advanced Study

Speakers

Lecture series :

Wenzhi Luo (Ohio State University)
Yiannis Petridis (University College London)

1 hour talk :

Andrew Booker (University of Bristol)
Dohoon Choi (Korea Aerospace University)
Satadal Ganguly (Tata Institute of Fundamental Research)
Masao Tsuzuki (Sophia University)

Organizers

YoungJu Choie (Postech)
Youn-Seo Choi (KIAS)
Jinsung Park (KIAS)
